- ☐ How to contribute to this repository
  - one time changes can be submitted by opening a PR
  - submitting feedback is also contributing; we should discuss the instructions for doing that here
  - how to become a member of a contributing team (instructors/UCAs); maybe some way to request invite?
  - do we add outside collaborators as collaborators (this is a Github permission/role and allows committing changes without forking)
- ☐ How to become a UCA
