1 Purpose

This website contains all the resources used in the delivery of CSCI 1301 - Principles of Computer Programming I¹ at Augusta University², as well as practical guides and additional resources for students and instructors.

2 Authors

The authors of this material are:

- Clément Aubert³
- Michael Dowell⁴
- Richard DeFrancisco⁵
- Reza Rahaeimehr⁶
- Neea Rusch⁷
- Edward Tremel⁸

⁸<https://edwardtremel.com/>

This material could not have been without the generous contribution of past CSCI 1301 instructors, among which Aubrey Bryant, Leszek Gasieniec, Onyeka Ezenwoye and Paul York. Additionally, the School of Computer & Cyber Sciences⁹'s academic advisors¹⁰, Markus Bacha and Wennie Squires, and communications & marketing specialist, Haley Bourne, improved the Academic Life¹¹ notes through their suggestions and references.

3 Supports

The authors are supported by an Affordable Learning Georgia¹² Transformation Grants¹³ (Proposal 571¹⁴).

15

This project could not have been without the support of the School of Computer and Cyber Sciences¹⁶ and of the Center for Instructional Innovation¹⁷.

4 Tools

We strive to prioritize open-source software when possible, and occasionally contribute to them.

4.1 Software

This website uses different technologies.

- The markdown source code is converted to **html**, **pdf**, **odt** and **docx** thanks to pandoc¹⁸ and pandoc-include¹⁹.
- The **pdf** format is compiled using XeLaTeX²⁰.
- The source code is highlighted thanks to Pygments²¹.

More details on the tools we use can be found in our user guide²².

4.2 Services

- The source code and the website are graciously hosted and built by github²³.

5 Licence

This work is under Creative Commons Attribution 4.0 International²⁴. Concretely, this means that you are free to:

- Save, print, copy and redistribute the entirety of the resources presented here,
- Modify them as you see fit,

as long as you give proper credit and keep the same licence.

Please refer to our licence file²⁵ for the detail of this licence.
