Keyboard Shortcuts Cheat Sheet

https://csci-1301.github.io/about#authors

June 12, 2021 (10:56:20 AM)

Contents

This document contains useful keyboard shortcuts for different operating systems and IDEs.

* = these commands work generally everywhere, beyond your IDE.

More advanced shortcuts may be available to your particular IDE:

- For Visual Studio, refer to the documentation[1],
- For Rider, refer to the documentation[2],
- For MonoDevelop, you can refer to this cheatsheet[3] or directly access the key binding panel[4].

0.1 Build solution

OS	Keys
