TODO:

☐ How to contribute to this repository

- – one time changes can be submitted by opening a PR
- – submitting feedback is also contributing; we should discuss the instructions for doing that here
- – how to become a member of a contributing team (inctructors/UCAs); maybe some way to request invite?
- – do we add outside collaborators as collaborators (this is a Github permission/role and allows committing changes without forking)

☐ How to become a UCA
