Contents

1 Purpose

This website contains all the resources used in the delivery of CSCI 1301 - Principles of Computer Programming I[1] at Augusta University[2], as well as practical guides and additional resources for students and instructors.

2 Authors

The authors of this material are:

- Clément Aubert[3]
- Michael Dowell[4]
- Richard DeFrancisco[5]
- Reza Rahaeimehr[6]
- Neea Rusch[7]
- Edward Tremel[8]

This material could not have been without the generous contribution of past CSCI 1301 instructors, among which Aubrey Bryant, Leszek Gasieniec, Onyeka Ezenwoye and Paul York.

3 Supports

The authors are supported by an Affordable Learning Georgia[9] Transformation Grants[10] (Proposal 571[11]).

[12]

This project could not have been without the support of the School of Computer and Cyber Sciences[13] and of the Center for Instructional Innovation[14].

4 Tools

We strive to prioritize open-source software when possible, and occasionally contribute to them.

4.1 Software

This website uses different technologies.

- The markdown source code is converted to `html`, `pdf`, `odt` and `docx` thanks to pandoc[15] and pandoc-include[16].
- The `pdf` format is compiled using XeLaTeX[17].
- The source code is highlighted thanks to Pygments[18].

More details on the tools we use can be found in our user guide[19].
